WiMax

Easy Install

The Ethernet Cable connects the SU-I to the local network device. This can be a laptop PC, Router or other supported network device.

The SU-I antenna is integrally mounted on the back of the unit. The SU-I must be oriented to have the antenna (rear) pointed towards the signal source or towards a reflecting wall or building.

ACT offers short-term post paid Internet option on its premium WiMax network, Not recommended for school dormitories, since hardware is available. **A security Deposit US\$350.00 is required (this is refundable once the unit is safely returned at the end of the agreement) + US 150.00 Activation Fee.** Available monthly plan options are listed below:
