

Welcome to Antigua & Barbuda

AUA STUDENT OFFERS

We would like to extend a warm welcome to you and thank you for choosing Antigua & Barbuda as your home base for the next 24 months. We hope you will have a rewarding and successful academic year.

After 11 years of operations, Digicel Group Limited has over 11.5 million customers across the Caribbean, Central America and the Pacific. The company is renowned for delivering best value, best service and best network. Digicel's 4G mobile is designed to provide fast and easy access to the internet through your phone, tablet or computer. You'll be able to experience average speeds in excess of 2Mbps, making it the fastest and most advanced cellular network in Antigua & Barbuda. Our plans will work with any WCDMA 850MHz 3G, 4G, HSPA, HSDPA and HSPA+ enabled smartphone and a Digicel SIM. You can connect a device you already own or choose from our selection of great handsets.

To make the move to Antigua a little easier on you we have included in the welcome package a free Digicel prepaid sim loaded with US \$8 talk time. Insert the sim into your GSM quad band phone and dial *122# send to activate the number. Congratulations, you are now a Digicel customer! To ascertain what your new number is, dial *129# send. You will receive a text message showing your new number.

Digicel is also the only company to offer you the most advanced home internet service in the country - Long Term Evolution (LTE). LTE is a new broadband technology that offers the FASTEST internet speeds today. It is around ten times faster than 4G Mobile, delivering a better internet experience, allowing you to access social media websites, download large files such as movies or videos, or to play online games through the Internet at faster speeds on a computer, laptop, tablet or other compatible mobile devices.

Please visit our stall on any of the registration days for some great offers and your chance to win a prize. We will be happy to assist you with all your needs and answer any questions you may have.
